MEET FROM ANYWHERE, WITH ANYONE OVER ANY DEVICE AT ANY-TIME!

Audio, Video, and Event meeting solutions over high quality and secure platforms.

Audio Conferencing

Sometimes you just need a voice call that is simple and does not require your participants to be in front of a screen and download a software application.

JoinmyMeeting offers a cost effective, reliable, and always on reservation-less conferencing service. No need to book in advance just dial in!

Features include:

- Individual moderator reservation-less codes
- In-call moderator touch prompts for call control and an enhanced meeting experience
- Billing codes
- Call recording, play-back and archiving
- In-Call Live operator assistance
- Dial out to participant option
- North American toll free and international numbers
- Administration portal and reporting tools
- Integrated web conferencing options
- Competitive low rates and no contract

Ask about available options that can add extra layers of security to your call!

Event Conferencing

When you are expecting a large number of participants, an Event call can facilitate crowd control, ensuring an orderly meeting without interruptions. Ideal for town hall meetings, quarterly call, product launches and more.

Features include:

- Dedicated Event coordinator to support your event from start to finish
- Quick 48 hour booking turn-around times
- Dial-in or Dial-out from operator to ensure attendee verification
- Managed question and Answer sessions
- Recording and play back options
- Optional Transcriptions
- Event viewer
- Available Web Casting

Planning a large call but don't require the controls provided with our event coordinator? Ask what how our Pin-Connect service can help!

Video Conferencing

We partner with Industry leading video meeting providers to offer our clients unlimited, feature rich, HD video meeting capabilities. Join a meeting from anywhere and from your desktop, tablet, or smartphone.

Features include:

- Individual moderator reservation-less codes

- Desktop application sharing
- Chat
- Personal lobby rooms
- Whiteboarding
- Breakout rooms
- Polling
- Question and answer panel
- Live call transcription AI
- Virtual backgrounds
- Multi-host calls
- Remote desktop control
- Computer audio plus Phone Dial-in / Dial out audio option
- Outlook or Google calendar scheduling integration
- HD Video and audio
- Optional Web Event service for larger controlled calls
- Available Video Room system integration and set up

Connect with one of our consultants to discuss your needs and preferences and we can match them to the best solution offering to fit your business!
